F or more than 50 years the Brahma Bull has been a symbol of strength, durability, and value. As part of Protective Industrial Products, Inc. The Brahma Glove Brand brings you not only the most well-known and widely sought after gloves in the American workplace but also new glove technologies and new product categories.

Creative retail packaging, display units and prepack assortment capabilities provide you with opportunity to turn shelf space into dollars. The Brahma Bull’s well known logo has built loyal customers that will come back to you time and time again. Check out the coated seamless knit gloves that provide your customers with superior grip, dexterity and fit. Peruse our new personal protective equipment section that includes High Visibility garments, Ergonomic items and Cooling Gear. As we bring these new, higher revenue producing categories to you we continue to adhere to our principal mission, protecting the wearer with consistent, quality products at competitive prices.

Thank you for daring to move forward, creating growth and continuing to bring us challenges and opportunities. We look forward to a prosperous partnership and many great years to come.

GLOVE STYLES, MATERIALS AND CONSTRUCTION

CUFF STYLES
Cuff styles vary depending on the specific needs of an application. The most common cuff styles are as follows:

- **KNIT WRIST**
  - Designed to hold glove in place and prevent debris from entering glove.

- **BAND TOP**
  - Helps protect wrist area. Slides on and off easily.

- **SAFETY CUFF**
  - Helps protect wrist area. Slides on and off easily.

- **GAUNTLET CUFF**
  - Increased protection to forearm.

- **SLIP-ON**
  - Design allows for easy on and off.

CUFF MATERIALS

- **LEATHER**
  - For extended wear and more durable applications, also launderable.

- **DUCK**
  - Single ply of cotton material, also launderable.

- **DENIM**
  - Economical single fabric material.

- **RUBBERIZED**
  - Two layers of fabric with a rubber material in between.

- **PLASTICIZED**
  - Woven polyethylene layer laminated between two pieces of fabric, also launderable.

- **STARCHED**
  - Two layers of fabric laminated together, then starched.

THUMB STYLES

- **KEYSTONE THUMB**
  - An inset thumb on full leather glove patterns. Keystone thumbs provide additional wear and greater comfort.

- **STRAIGHT THUMB**
  - A glove thumb that normally lies straight with the index finger. They are common in most fabric gloves and drivers’ gloves.

- **WING THUMB**
  - Glove construction that angles the thumb diagonally across the palm. Frequently found in leather palm gloves, wing thumbs improve comfort.

- **REVERSIBLE**
  - Reversible styling enables the wearer to wear the glove on either hand. These gloves are almost always made from a jersey material.

CONSTRUCTION

- **CUT & SEWN**
  - When fabric such as leather, terycloth, jersey or canvas is cut and sewn for industrial gloves. It is generally constructed in one of two patterns - Gunn Cut or Clute Cut. Cut and Sewn synthetic gloves have been impregnated or laminated with a chemical solution such as vinyl or nitrile, before being cut.

- **KNIT PATTERNS**
  - String knits are constructed of natural yarn fibers, blend fibers or high performance yarns which provide abrasion and cut protection. An additional benefit of the seamless construction of string knits is their reversible pattern.

- **DIPPING**
  - Unsupported gloves are manufactured by dipping a ceramic mold into a polymer of nitrile, PVC, rubber neoprene, vinyl or a combination of those polymers. The polymer determines the abrasion resistance and cut resistance, as well as the chemical protection properties of the gloves.
PROFESSIONAL GRADE GLOVES

HEAVY DUTY CONSTRUCTION
THE RIGHT GLOVE FOR THE JOB

JOURNEYMAN
- Goatkin leather palm and back for comfort and durability
- Thermo Plastic Rubber molded knuckle guards
- Foam padded palm; PVC reinforcement at thumbs
- Nylon spandex fabric for dexterity

ACCEPTED ART APPLICATIONS & FILE FORMATS
- Adobe Illustrator (.ai, .eps, .pdf)
- Adobe Photoshop (.psd, .tif, .jpg*)
- Macromedia Free Hand (.fh, .eps, .pdf)
- Corel Draw (.cdr)
* High resolution JPG files (300 dpi) at final output size can be accepted for single color jobs only. GIF, PNG, BMF and low resolution JPG files will NOT be considered as production ready artwork.

ARTWORK GUIDELINES
PLEASE FOLLOW THESE GUIDELINES WHEN SUBMITTING ARTWORK
- Artwork needs to be "vector" art.
- 72 dpi image or images downloaded from the internet cannot be used for printing.
- Artwork should be at least 300 dpi at the final output size.
- All fonts used MUST be converted to outlines.
- Photos, copies, business cards, stationery, drawings, decals and faxes copied from web sites are NOT acceptable forms of art.

If your artwork does not meet our printing requirements and must be re-created (this includes block lettering), we do offer this service for a $50.00 one time fee. This may also add extra time to your delivery date.

CUSTOM IMPRINTING IS AVAILABLE ON MOST SAFETY EYEWEAR STYLES, HARD HATS, GLOVES, VESTS, T-SHIRTS, SWEATSHIRTS, JACKETS AND BANDANAS.

- All fonts used MUST be converted to outlines.
- Photos, copies, business cards, stationery, drawings, decals and faxes copied from web sites are NOT acceptable forms of art.

If your artwork does not meet our printing requirements and must be re-created (this includes block lettering), we do offer this service for a $50.00 one time fee. This may also add extra time to your delivery date.

CUSTOM IMPRINTING IS AVAILABLE ON MOST SAFETY EYEWEAR STYLES, HARD HATS, GLOVES, VESTS, T-SHIRTS, SWEATSHIRTS, JACKETS AND BANDANAS.
